

## ShotSpotter®—The Global Leader in Gunshot Detection, Location, Alerting and Analysis.

**SST, Inc. is the global leader in gunfire detection and location technology providing the most trusted, scalable and reliable gunfire alert and analysis available today.**

SST's deep domain expertise, along with cumulative agency best practice experience, deliver measurable outcomes that help reduce gun violence. Privately held, SST possesses multiple patents resulting from nearly two decades of innovation in the area of acoustic gunshot location technology.

### Real Time Incident Review Center

Included in ShotSpotter® Flex™ is SST's Reviewed Alerts Service, which provides immediate review and qualification of all gunfire incidents by ShotSpotter-staffed and trained gunshot acoustic experts. Key benefits delivered by ShotSpotter Flex include:

- Instant, Accurate Situational Awareness
- Enhanced Forensics & Crime Analysis
- Incident Expert Qualification
- Long-Term Crime Deterrence

### 2014 National Gunfire Index

SST analyzed and confirmed 33,975 separate incidents of gunfire in 2014. Data came from a statistical sample of 47 American cities where ShotSpotter Flex gunfire detection is currently deployed and trusted by law enforcement agencies coast-to-coast. ShotSpotter's 2014 National Gunfire Index revealed:

- Gunfire is vastly under reported to 9-1-1 with fewer than 1 in 5 unlawful shots reported.
- In 28 ShotSpotter cities we could compare 2014 to 2013, the median reduction in gunfire rates was 28.8%.
- The number of homicides is only a tiny fraction of the number of gunfire incidents that were recorded.

By tracking, aggregating and analyzing gun crime data, SST offers new, previously unavailable insight into the scale and intensity of gun violence across the U.S. Read the full index at [www.ShotSpotter.com/2015ngi](http://www.ShotSpotter.com/2015ngi).

### ShotSpotter® Flex<sup>SM</sup>

ShotSpotter Flex is an affordable annual subscription service that is a hosted, cloud-based solution. SST's trained gunshot acoustic experts provide immediate review and qualification of all gunfire incidents and instantly notify officers of shootings in progress with real-time data delivered to dispatch centers, patrol cars and even smart phones. Knowing the precise location of illegal gunfire incidents enables first responders to aid victims, collect evidence and quickly apprehend armed, dangerous offenders. The ShotSpotter actionable intelligence can then be used to prevent future crimes by positioning law enforcement when and where crime is likely to occur. With ShotSpotter Flex, police now possess a scientific barometer of success: smart policing leads to fewer shootings.

### ShotSpotter® SiteSecure<sup>TM</sup>

ShotSpotter SiteSecure is the only technology that provides detection, precise location and analysis of both indoor and outdoor gunfire in under a minute.

First responders and security operations will be notified of gunfire within seconds, providing a complete "dome of protection" around any critical infrastructure facility. With 24/7 monitoring in a cost effective solution, ShotSpotter SiteSecure is designed to protect commercial / office buildings, government facilities, hospitals, airports & other transportation hubs—any large facility needing critical infrastructure coverage.

### SST<sup>TM</sup> SecureCampus<sup>TM</sup>

SST SecureCampus is like a fire alarm in an active shooter situation: fire alarms don't prevent fires but can offer a life-saving time advantage in the rare event a fire breaks out. Increased speed and situational awareness can mitigate damage and save lives. As soon as gunfire is detected—either outdoors or indoors—police get precise location of the gunfire, number of rounds fired, detailed map of the campus floor plan, room number and how to get there, and the number of shooters involved. Additionally, they get real-time updates to 9-1-1, the responding officer's patrol car and mobile phones.

### Leadership Team

- Ralph A. Clark, President and CEO
- David H. Chipman, Sr. Vice President, Public Safety
- Joe Hawkins, Sr. Vice President, Operations
- Paul Ames, Sr. Vice President, Products and Technology
- Damaune Y. Journey, Vice President, Security Solutions
- Douglas A. McFarlin, Vice President, Engineering
- David P. Rogers, Vice President, Operational Engineering
- Sonya L. Strickler, Vice President, Finance and Controller
- Robert L. Showen, Ph.D, Founder and Chief Scientist

### Ownership
